Master of Science in User Experience

Beginning August 2026

Arizona State University

EXPERIENCE

UX/UI Researcher and Designer

September 2025 - Present

Thorg App | Remote

- Conducted UX and UI audit of Markdown notetaking extension for VS Code to identify usability issues and define improvement roadmap; created user personas for three-stage release, expediting first-stage rollout to EOY.
- Designed 7 low- and high-fidelity wireframes and 3 UI mockups in Figma Make for note connection graph visualization, accelerating development for initial release.
- Collaborated with development and logistics teams to ensure platform usability across audiences ranging from students to software developers; results so far reduced user error rate by 20% and improved note organization user flows.

Project Manager & Brand Designer

August 2025 - Present

AGLego23 | Hybrid (Caldwell, NJ & Remote)

- Accelerated brand relaunch, opening new Etsy shop and announcing brand redesign in one third of the original timeline by designing for brand target audience and following an Agile workflow.
- Continually maintained projects' documentations, including Gantt charts, risk logs, issue trackers, budget trackers, and more. Reorganized & streamlined workflow allowed for 1.5x increase in order fulfillment.
- Facilitated continuous communication with business stakeholders, allowing for increased sales and awareness opportunities like craft fairs and giveaways, increasing Etsy shop traffic by 70%.

Packaging Design Intern

June 2025 - August 2025

Rubies II | Westbury, NY

- Copyedited and proofread costume and accessory packaging across 3 languages, decreasing proof turnaround time by 50%.
- Designed 20 potential packaging concepts for a well-known brand's licensed hairspray in Adobe Illustrator following human-centered design principles, substantially expediting the design process for senior designers.
- Styled costumes and assisted in photography for product packaging, increasing studio efficiency by 35%.
- Prepared dielines and built 150+ packaging mockups to present to licensors and third-party retailers, upholding and supporting company optics.

Global Career Accelerator Student

May 2025 - July 2025

The Global Career Accelerator | Remote

- Leveraged AI LLMs as a strategic partner to brainstorm ideas, analyze information, and generate creative solutions for real-world projects, like a sustainability impact analysis for Intel and a social media campaign and data analysis for the Grammys.
- Researched SEO keywords using Semrush and Google Trends for a CeraVe customer persona. Wrote 3 SEO keyword-rich blog posts that align with CeraVe's brand voice and speak directly to target audience's needs.
- Designed and developed a fully branded landing page for a non-profit using AI coding assistance, HTML, and CSS.
